

1-4-16 April Fool Day : Not only Management, BSNLEU is also fooling workers.. inorder to save their skin demonstration call is given now to end the show. BSNLEU is not having any feeling of guilty for its absence in the PLI committee meeting, the proper negotiating table. It fails to report to the employees on what basis it shaped the negotiation when it attended that meeting in the earlier occasion and why and on what basis management is offering the PLI whether meager or sufficient.. Where BSNLEU differs 'only on quantum or on the modality of calculation'. If you are accepting the modality of calculation, how you want to increase the meager quantum to respectable quantum.

After demonstration what.. are you going to permanently boycott the PLI committee till the elections are over and thereby getting asylum on NFTE bashing. Why BSNLEU avoiding negotiation when management called the union to the committee.. Why now only so hurriedly demonstration keeping silence in the entire Deepavali period.. In the demonstration as usual you all blame NFTE calling names low quotation etc unfortunately BSNLEU never have any quotation on its own name.. Wage Revision on Executive's quotation, NEPP on Shri Raja's- management's quotation.. BSNLEU is fooling workers by its gimmick of namesake protests and it has no tradition or mindset to protect workers and settle things.

It is interested to play always a spoilers role and it is habituated to act in that role also.. Our timely caution is Beware of BSNLEU which is holding demonstration not to blame management or to get any respectable PLI before election just to blame NFTE and divide – reduce the collective bargaining and cash some more votes
