

BSNL gave highest number of mobile connections in the month of July.

It is a great news that BSNL has given the highest number of mobile connections in the month of July 2015. **BSNL has given 16 lakh mobile connections in July**, while Airtel has given 11.90 lakh connections and Idea has given 10.25 lakh connections. It must be noted that BSNL gave only 8.6,lakh connections in the month of May, and this increased to 11 lakh in June.

Due to the phase 7 mobile network expansion, there is a general improvement in BSNL's quality of service. Together with this, the 'Roaming Free' scheme, introduced by BSNL recently, has put the Company in a strong position, in it's competition with the private operators. In the MNP front also, more number of customers of private companies have migrated to BSNL in the month of July, than the number of BSNL customers migrated to private companies.

This is a healthy trend and we, the employees, have to put in our best efforts to maintain this trend.
